

A memorable stop in Pictou County

Upon entering this unique Pictou County market, you can smell the home baking, see fresh fruits and vegetables, admire beautiful giftware and an amazing array of flowers and plants, which tempt the senses and together create a memorable experience.

“Tourists often don’t know what to expect,” says Jeanette Hermanson, owner of The Green Thumb Farmer’s Market, which has been in business more than 40 years. “It is a pleasant surprise and that’s what is written in our guest book,” she says. “We work very diligently to make this a stop people will remember.”

The market also features crafts, clothing, art, pottery, home furnishings, jewellery, ladies’ accessories and more.

The garden centre, open from May to October, is known for its unique offerings, such as the Henri line of fountains and birdbaths, and the exceptional quality of its plants.

An important part of the Green Thumb experience is the people, from the bakers to garden centre workers to in-store employees. “We have wonderful staff.”
