

## *Wanda makes beautiful, affordable quilts*

Wanda Frizzle makes quilts that even people who aren't interested in quilts end up buying.

"They're amazed at them all hanging up on the walls," says the owner of Quilts by Wanda of the Great Village area.

"We had a lady in here, who said she just came in to look," says husband Don, who helps with the cutting. "I don't want a quilt, I'm not even interested in a quilt, said the woman Within five minutes, she had her quilt picked out."

For those still undecided, the price helps. Usually the double or queen size starts at around \$375, with the king size starting at \$450. Baby quilts are \$35. And there's no tax on any of the quilts. Most people "are used to paying a lot more," says Wanda. The quilts can also be shipped.

Wanda keeps her prices reasonable because she loves to quilt. "I can sit and do it for hours." She learned from her mother, who quilted until she was 93.
