

Sea Shell Design offers what 'you can't find in other places'

Sea Shell Design, located at 10 Inglis Place in Truro, is an experience that shouldn't be missed. We welcome you to explore the two floors of magic.

People always comment that when they come into the store, it always makes them feel happy. As you enter, you'll be deliciously surrounded by sounds, scents and visual wonder.

"What makes us unique is that I seek things out you can't find in other places," says owner Shelley Austin. "I really try to focus on bringing clothing and jewelry that is different."

For example, her buying trips have included Indonesia, India and Mexico. "Not only do I get to meet the distributors and see how the products are made, I bring them back myself and so I can sell them at a better price."

In addition to offering an international selection of gifts, Sea Shell Design also carries pewter and Seaglass jewelry made in the Maritimes.

Venture upstairs and you will find a Zen section where we carry inspirational banners, yoga wear, candles, fountains and Buddha boards. Relax and take a deep breath as you enjoy our spa section where we feature handmade Victorian nighties. You'll also find semi-formal clothing, which is unique and quite breathtaking.

Tucked in the back is a clearance section where you can find some amazing deals on clothing. Take a moment to look through our selection of used books.

Another feature is our Nova Scotia wheelhouse where we carry souvenirs, t-shirts and a line of jackets and children's clothing made by Sea Shell Design. These jackets are reversible and sold in stores across Canada. If we don't have the size and colour you want, we can order one specially for you.

We invite you to stop in . . . smell the yummy smells, dance to our world music, and have some fun!
