

Eddy Group keeps 'Building on Service'

The Eddy Group of companies began in the late 1800's with George S. Eddy of Bathurst, New Brunswick. The Maritime-based, 4th generation family business has come a long way since then, but the basics remain the same: "Building on Service," to provide reliable, competitive, and innovative solutions for its customers in New Brunswick, Nova Scotia, Prince Edward Island, and Quebec.

Eddy Group is a leading distributor of quality products for residential, commercial and industrial needs. These include plumbing and heating, electrical, hardware, building materials, municipal and waterworks.

To further enhance service, each of the seven locations hosts beautiful bathware showrooms. These showrooms provide the ultimate service for contractors and their clients when selecting product for their homes. Designed in a home like setting including operational displays it allows for professional and knowledgeable decisions for clients.

A leader in the industry Eddy Group offers an interactive web site, web commerce and rewards programs for their vast and varied clientele.
