

## World's highest tides in your front yard

What makes a stay at the Four Seasons Retreat in Upper Economy memorable?

First of all, there are the tides – the highest in the world are in your front yard. At low tide you can walk out 2 miles on the bottom of the ocean. And the water rises around 50 feet. Amazing!

Then there's the privacy of the cottages. There are trees between and behind each of the 12 units, with a full view of the bay from your verandah.

Gordon and Maureen Matthews created and have operated the year-round 4-star resort for over 20 years. They take great pride in what they offer. All of the cottages are named after wildflowers that grow on the property, and visitors often comment on this.

In the spring, summer and fall, Mother Nature provides lots of outdoor activities – swimming, hiking, fishing, hunting, to name a few. In the winter, guests are greeted with a fire burning in their cottage.

In any season, guests are often greeted not only by staff but also by three Bernese Mountain Dogs – Shadow, Ben and Kika.

Memorable.
